SKILLS

Languages: C++, Python, C

Tools/Platforms: SQL Server,Leetcode,GFG

Soft Skills: Team Player, Adaptability

PROJECTS

Ultrasonic Distance Measurement System | C++,Basic Audrino KnowledgeMay' 24

- Interfaced an HC-SR04 ultrasonic sensor with an Arduino/ESP32 using integrated C++ to measure obstacle distances from 5 cm to 250 cm with ± 3 mm accuracy based on time-of-flight principles.
- Implemented moving-average filtering algorithms to eliminate environmental sensor noise, mitigate signal jitter, and ensure stable real-time range calculations.
- Configured an I2C LCD for live telemetry display and designed an adaptive buzzer/LED warning mechanism that dynamically scales alert frequency based on proximity thresholds.

TRAINING

Cipher Schools (Edtech Company)Jun' 23 – Jul' 23

Data Science using Python

- Performed Exploratory Data Analysis using NumPy and Pandas, leading to a 20% reduction in data preprocessing time.
- Developed, trained, and evaluated various Machine Learning models, including Linear Regression, KNN, SVM, Decision Trees, K-Means, and Ensemble Methods using Scikit-learn, achieving an average accuracy improvement of 15%.
- Employed feature engineering techniques to enhance model performance by 25% for predictive analysis.

CERTIFICATES

Cyber Security Certification | Infosys SpringboardMay' 26

C++ Certification | Infosys SpringboardApr' 26

EDUCATION

Lovely Professional UniversityPhagwara, Punjab
Bachelor of TechnologyAug' 25 – Present
Computer Science and Engineering; CGPA: 7.51

Bhashyam Junior CollegeGuntur, AndhraPradesh
IntermediateMar' 24 – May' 25
PCM; Percentage: 93.7%
